Some suppose the former similarity to be still insisted upon, that God hath dealt with them, or they were to be dealt with, in a very plain and familiar manner, as Nurfes, or Parents, are wont to do with little ones that lift, and clip words, and change letters, and use divers new terms, when they teach them to speak; and yet all this would do no good. Others conceive their fortifhnesse to be a new way deciphered; as if the Prophet should fay, that they were grown to that height of supidity and seasses, that they no more underflood, or regarded, or reaped any fruit from ought spoken unto them, though never so plainly, either by God in his word, or from God by his Prophets, then as if it were delivered in some strange and barbarous language, in a tongue utterly unknown to them. And that threshing, be in Scripture, an ordinary emblem of afflicti ons, and fufferings; Of which fee chap. 25, 10. Yet the fowing of the feed, may feem not fo fit to represent Gods execution of judgment; and is both in the places, above pointed to, and ellewhere also, com monly used another way. To this it may be answered, First, that the same similitude, is in Scripture, many times, diversly, vea, contrarily, made use of Of which, see on chap 27.12 & 64.6.8 66.14 Secondly, that it is sufficient, that it holderh in the general, to wit, that as the husbandman is not alwaies about one work, but having dispatcht that which he hath in hand, proceedeth unto that that in his course of employment, is next to be done; fo God having for some competent space of time, taken pains, by way of persualion, and premo-nition, with his people, doth, in the next place, proceed to that which in the course of his just, and most pradent dispensation is next; to the execution of judgment, with those that will take no warning but refuse to be reclaimed, and reformed, by the former, 2 Chr. 36. 15-17. Thirdly, the lowing of feed, is not altogether unfit to refemble the execution of Gods judgment, partly, in the feattering of it upon the ground, Levit, 26, 33. Deut. 28, 64. chap. 24. 1. partly, in the throwing of it into the ground, and for a time, as it were, burying it there, Pf 26,5,6, Ezck, 37.11,12.

The defect of the subject, as before; and this the rather, because the word, barly, is in the Hebrew a feminine; whereas the participle, here used, ismasculine : the word is no where else found in Scripture. But the Rabbines use it, for to design : and a word thence derived, for rows, whether ridges, or trenches, defigned

in their place Heb.in, or, within, its bounds. For the particle, in, is, as before, wanting; and the promain is fingular, and feems to be-long to this laft; being mafculine; because the word feed, or grain, is fuch: and because the word fignifies a bound, or border, some of the Jewish Commenters would have the meaning to be, as if it were faid. He will fow his wheat in the principal part, or the middeft of his field; but the tye in the verge, or the edges, and borders of it. neither fo good, oft time, nor to fafe. But that feeins not fo well to fuit with the context. The intention of the Prophet feems to be, to thew the husbandmans diffretion, in fowing his feed, neither confounding, and mingling his feed, of feverall forts and kinds, one with another, Deut, 22, 9. nor cafting them into the fame ground; but affigning unto each fore and kind, a feveral place; and that fuch, as is futable thereunto. Thereby implying, also, that God though after admonitions and menaces, he proceed to a further matter, unto execution of judgment, yet he doth that also, with much diferetion, according to the divers dispositions of those with whom he hath to deal. Of which also, more after, ver. 27.

V.16. For his God doth instruct him to diferetion, and doth teach him] In thefe words, thus read, thould a reason be rendred how it commeth to pass, that the husbandman carrieth himself so discreetly, and prudently,in these his affairs, to wit, because God hath endued him with wildom, and diferction to to do, Job 5 5, 1 1, as implying, that God would mach more do all things, fo, himfelt, who had taught the husbandman fo to do, And this, no doubt, is intended throughout the whole passage. But yet there is another reading, that seems more agreeable, both to the words of the text, and to the course of the context : for thus the words lye in order, and run word for word. And he beatth is out, according to that courfe, that his God teached hm. According to which reading, the Propher heer paffeth from the husbandmans different on dispoing of his feed, after he hath fitted the ground for it, and his different in threshings, and bearing it out, propounded in general terms in this verse; together with an intimation, how, and from whom he learned so to do, but more particularly, declared, in his divers dealing, with divers forts of grain & feed, in regard of the divers nature, and quality of them, v. 27, 28. And this Expolition I finde approved, and confirmed, by the late learned Annotator.

Sure the term of challing fitteth not there : for the complaint was not of any thatp penalties for mildemeanures; but of heavy taxes and burdens, laid on them, for the maintenance of his state. And so may it also be rendred, in divers speeches of Solo-mon, concerning the correcting of children, by beating them with the rod; as Prov. 19.18. & 29.17, and of the use of the rod, in this piece of husbandry, fee ver. 27. which feemeth, also, to have an allusion, to that manner of chastiling children with the rod.

V. 27. For the fitches are not threshed out with a threshing instru ment : neither is a cart wheel turned about upon the cummin: but the fitches are beaten out with a staff, and the cummin with a rod] What was spoken in general, v.26.of the husbandmans cautious & discreet carriage, in the threshing and beating out of his seed and grain, is here further confirmed, by an enumeration of some of the forementioned particulars, and his various dealing with his feveral forts of them. And his diferction and caution, is in two things observed : First, in that he hath gentler ways for the beating out of the tenderer feeds, then those, that he useth about the harder grain.

And secondly, that though he makes use of some harsher means, for the threshing out of the harder grain; yet neither doth he keep it continually under the cart, or the hoof; (the means mostly then uled)nor doth he fuffer it to be bruiled, or beaten to pieces, as are the clods, v. 24, and to spoyled by either, v. 28. V.28. Bread-corn is bruifed] Thus is the text generally rendred and read; fave that some for brusted read ground for it must, saythey, be ground, before it can become bread: and fome, though it be threshed. But neither doth the Prophet here meddle with grinding; nor doth the word fignific to thresh and being read, as it is here, affirmatively, this branch fhould run directly counter to the close of the verfe where the same word is used, and that withall denied, that accordwhere the tank won't successful that within a nemera, that decor-ing to the received reading, is here affirmed. I suppose, therefore, that the negative is here wanting, to be supplyed from the verie nex before, as it was there supplyed, in the latter branch, from the formers of it is in many places of Scripture, Job 23,17,18'al. 9.18. 91.5,6 where it is thrice supplyed in two verses, from the first branch of the former verse. Thus then the text would run. For the gith is not threshed with a drey; nor is the cart-wheel turned about upon the -Nor is the bread-corn bruifed, Or, if that feem better, the disjunctive supplied will help it as well; and then the text may be thus rendred, For the gith is not threshed with a dreyor is a cart whielturned about upon the cummin, - Or, is the bread-corn bruifed. And the defect of the disjunctive is no less frequent. See 1 Sam.20.12.2 King.9.32. Job 6.6.8 8.11.8 11.7.8 13.9.ch.17.6. & 38.14. The meaning then is, the harder grain, such as bread is ufually made of, as wheat, barly, and rye, though the drey be drawn over it, and the iron-wheel bruize the firaw and falk of it, which the husbandman doth not fo much regard (See ch. 5.10.) and the beaft be suffered to trample upon it; yet is all this carryed so cautiously by him, that the grain is not mauled to pieces, or marred; which he fur

So Joh. 12. 36. he departed, and was bid : That is, absented himself from them : or, shall vanish away, and perish, be utterly lost: as some take the word, Prov. 28.28 It seems the same with the former branch, in other terms, and the Prophet may well be deemed, in the use of the word, to have an eye to what follows, ver. 15, of their contriving the wors to nave in cya to manatomy extra them from God him-felf: asif he had laid, Ye make account, to have your counfelf hidden from God and by his uft judgment, they shall be hid, that either they shall never come to light, or shall be utterly frustrate, and vanish away, if they do.

The persons, here spoken of seem those scotling Statefmen, that devided all that the Prophets spake; and by their wiles and shifts, made account that they were sufficiently, able to secure themselves, whatforver should come, or howsoever it should fare with others, Ch.28. 14, 15.22. Nor is it unlikely, but that they would promise the like security unto others, with whom they were in esteem, as great wisards of State : but as God, before, threatned to infatuate them, and turn their wildome into folly; fo he now further telleth them, that albeit, their devices and defigns be fo him, or to bring to effect, ought, that he intended to crofs them in, then the potters clay is able to keep out of his fight, when he hath it in his hand, or to mould it felf into any other frame, then he is pleafed to work it to.

that feek deep to hide their counfell from the Lord] That is, as fome, that take counfel in secret with themselves onely, not confulting with God, or feeking to him for direction, or affiftance, chap, 31.1. But the words feem rather to intend fomewhat elfe; and they lye thus in the text, that make deep from the Lord, to hide counfel. where there are two Hebrasims, which being opened, will much fel, where there are two Hebraims, which being opened, will much clear the text. The former is, in making deep to idet: for to make dop to bid; is nothing elle, but to hid detcp, is a, to make deep to dwell, is, to dwell deep, Iera, 9, 817, See allo, chap 31.6. The latter is, in making deep from the Lord, is, to make too deep for the Lord : to wit, to descry, or discover : as, deep from hell, or the grave, long from the earth: broad from the fea: that is, deeper then hell, or, the grave : longer then the earth : broader then the Sea, lob 11. 8, 9. But the particle, if, is, in Scripture, oft used, not as a conditional, but as a note of assertation, and asfurance: as Prov. 3.34. & 23. 18. So the Hebrew writers here expound it. Howbeit, I conceive the word rendred if to be, here, tather an interrogative : as oft it is, Job 8.3.8 11.2.8 17.2. & 39.17. and the negative omitted oft, in such forms of interrogation, that which hath not hitherto, by any, been observed) ought to be supplyed. So I Sam. 2. 27, 28. Did I not appear to thy fathers louse. and did I not choose him? and did I not give to thy fathers house? Job 20. 4. Knowest thou not thus of old? where our version hath supplyed it. And Job 21. 4. Is not my complaint to man? where our version hath omitted it. See more hereof on Jer. 31. 20. And so the words may be rendred. Shall it not be accounted, as the potters clay ? or, as clay to the potter ? as if he had faid, Yes undoubtedly, it shall. So this, in sense, comes fully home to the somer: as the like two sold version, Pfal. 63. 6. And the meaning either way rendred, Your turning of things upfide down, to conceal your intended couries, as men whelm a dith, or veffel, to keep what is in it, or under is, our of fight, Mar. 5.15. or, that which you roll up and down in your thoughts, devling how to contrive it, with the greatest cunning, and probability of successes, to that purpose, casting it now into one frame, and then into a another shape, until you have moulinto one frame, and usen into a monter image, onto you may be indead it to your mind: I yeth as open to Gode eye, as the faithin of the pot of clay, doth to the potter, when he hash it before him, upon the wheel! and he is as able to quadh it all, as the potter it to mar and alter the faihion of the veffel, when the making of it likes him not, Jer. 18.3,6.& 19.9.10. Job 12.22. & 26.6. Pfal. 33.10,15. Prov. 15. 19. Heb. 4.12,13. Yet there want not that render it, Your turning, or, contriving of things, is, as if the clay were accounted the potter; oc, as if the potter were reputed as the clay. And as others, again, As y the potentiary reports as one cap, and as others, again, of your perverfentfel as if the potter were accounted no better, or no other, then the elas. V.6. The burden of the beafts of the South : Into the land of trouble and anguish, from whence come the young and old lion, the Viper, and fiery flying Serpent, they will carry their riches upon the shoulders of young affes, and their treasures upon the bunches of camels, to a people that thall not profit them. I The Prophet proceeds to tax their extream folly, in taking so much pains, and undertaking such toil-som and dangerous journeys, through the desarts of Arabia; to transport their goods and treasure into Egypt, either there to fe-cure them; or thence to procute, and hire aids, from those, that should not be able to fland them in any stead.

The burden | Some, at these words, would begin a new Sermon, because the several prophecies, many of them, so begin: as chap 21,1,11,13, but the continuation of the subject matter : and the fequel of the context, is fuch, as affordeth no probability for any fuch conceit. By the word, some would have understood, a burdenfome prophecy: aschap. 13.1. and fo the Greek, rendring it, a vision. But others rather take it in its proper lenfe, for a burden : as chap.

of the beafts of the South | Some, for the beafts of the South : that is, a burdensome prediction, for those brutish persons that toil and moil like beafts, to convey their goods to them, from whom there is nothing, but mischief and miscry to be expected. And there is another word indeed, frequently used for brutilh men, that fignifies a beaft, Psalm 73.62. & 92. 6. Prov. 12. I. & 30. 2. Jer. 10. 10, 14, but that here is used very seldom to, if ever, for those two places, Job 18.3. Some would have the word bur-den, taken here absolutely, reading the text as for the burden of the beafft of the South: or, that travel Southward : and the like conftruction is found, Pfalm 18,30. & 104. 17, Hof.g. 11. But the text may be read, admitting a trajection, not unufual, and joyning it with the carriages afterward specified, a bipter for bealis, tra-velling fouthward, or bound for the South, shall they carry, to wit, their riches, &c. See the like trajections, Job 23.9, & 35. 12. Pfal, 17. 7, 13. & 89. 50. & 90. 11, & 140. 11. chap. 29. 22. & 41,27.

Now all this divers interpreters apply also to Egypt, expounding the words, some of the beafts, that were there adored, some of the wild Beatls and Serpents that abounded in Africa, and those parts of it, that neighboured upon Egypt. Others, again, not of any beafts, but of the Egyptians themselves, people, in condition, like to such beafts, and that should unto them prove such. See chap.II. 6. 8. But to run to allegories, where a plain and proper fense, even offereth it felf, is unfafe: that fuch creatures as these were very rife, as well in the deferts of Arabia, as of Africa, cannot be doubted much less denied. See Deut. 3. 15. Andthis most follow, as implying, that though God kept them in streights, and held them to hard meat, for some space of time, yet during that time they should not want of his Prophets, Efay, and others, to instruct them. This is true, but I conceive it not to be the Prophets meaning in this place, wherein he feems rather to relate how it flould be with them, when by this hand of God that had been up. on them, they were now reclaimed, to wit, that their teachers should not be inhibited,& thrust away by them, as formerly they had been, v.10,11. for those words, any more, do evidently relate to what had before time been with them. And I shall crave leave to add a further notion, which I suppose may have place here. I took away, saith the Allyrian, the wealth of the world, like eggs out of a birds. neft, and none durft move the wing against me, ch. 10.14 in allusion whereunto, to wit, to the manner of towls, which with the wing are wont to firike at, and put by the hand, that offereth to take eggs, wont to time as, and put by the main, that different course eggs, or eitekins from under them, the Prouber there making use of an unufual word, might fay, Tour teacher shall not be winged, as advers, but in another senie, render in that is, wing-beates, as cudedly for beaten with a cudgel) thrust aide, and put away, by such as distallo what they deliver. Others, Efay, and the other religious Priests and Prophets. But because there is an ambiguity in the word; and it is used, sometime, for rain, that is, cast forth and shed abroad, Joel 2,23, sometime, for an archer, that sendeth out shafts, 2 Sam. 11,24. fometime, for a teacher, that poureth out, and distilleth doctrine like rain, Deut. 31.2. Chap. 9, 14. Prov. 5.13. Same of the Hebrew Commenters, (nor want there that concur with them) would have the meaning to be, that their rain should not be restrained, or kept from them, that the ground being watered, they might then again have plenty, instead of that scarcity, which they were afflicted with before. And because it might be objected that the word is plural: before. And because it might be objected that the word is plant; whereas neither this, not another of the faum linage, are in this notion ever found, but singular. This, to put by, they observe that the veit which it is ipyned widh, is fingular; and that there must be an irregularity in the form of the word. But the words next following years. thinceyes shall fee thy teachers] Thy rain, fay some; but of that, before: and thy rain, is a phrase unusual in Scripture. This most expound, of having with them, and enjoying their teachers. And the word, feeing, in Scripture, is not feldom fouled, Pfal. 34.12.ch.29.23. & 33.17. Jer. 17.6. fo that they should not complain of a want of them, as in some ages they have done, Pfal. 74, 9, 4mos 811,112. Howbeir, I conceive the meaning here to be seldivered, in wayed opposition, to their wonted earning better that they should look after their teachers, with due respect and regard, whom they had looked their executes, wan our respect and regard, whom they mad looked away from, and rejected before. Your eyes fee, is an emphatical phrase in Scripture, Gen. 45 12. John. 24.7. But it is here yet more emphatical; Thine eyes shall be feeing; thou shalt be frequently, yea, continually ening of them, & looking after them, as those on whom ye depend for instruction, and direction, as 2 Chr. 20.21. Pf. 123.13. So Solomon admonishesh his son, never to have his eyes off his precepts, Prov. 3.21.& 4.21.

But what is specially meant by, Taphet, here, is questionable; among those of pocially, that understand it of some place, wherein this execution was done hereupon earth. Of those some are of opinion, that in the vale of Booking. non, this execution was done; the Affyrian camp, a great parcof in lying thereabout or that there the lews buried, or sournethe careaks of them, as Ezek, 39:11, 75; But this is of no certainty, nor great pro-bability. See on ch. 37, 36. Others therefore understand it of a tropi-cal Topher, a place that should be as a Topher to them; that wherefoever they should lye encamped, when Gods executioner should come to do his office with them, and to execute his mafters down upon them, that place fould prove fuch a Topher to them, as the Prophet here describeth, See ch: 66, 24, and see of Ariel, Somewhat the liko.ch.29:2.

There is a redundancy in the Hebrewsthat hath some emphasis in it, which our English cannot well express : He shall flee himself, or for himself. [hall be discomsited] The Hebrew word, here used, is ambigu ous. It may fignific, they shall be unto tribute: or they shall become tributary. And to some here, according therein with the old Latine,

mirly (aid, they flad) return, v.6. Others of them, reading the words, expound it; becau'e to it is most commonly used, Gen. 43.15. Dette. deny this to be spoken of Sennacherib and the Assyrians, in Ezekiahs reign, and would turn it, wholly, to the Kingdom of Chrift, But the Prophecy is too clear to be fo thitted off. And as for those, that would have it understood of the Allyrians becoming tributary, fometime after first, to the Chaldeans, and then to the Medes and Persians, they firay too far from the flory, here intended. Others, therefore, render it. They fhall be unto melting; for that is the proper notion, and common ufe of the root, and the fignification of another word fpringing from it, Pf. 58.8.So the meaning is, either their multitude bull melt away; as 1 Sam, 14.16, or their hearts fall melt within them; as Joth, 2.11.& 5.1.& 7.5. and they shall faint for fear; as chap.

> V.9. And be [halt pafe over to his firong hold, for fear] The word, here used, fignifieth, properly a rock, c. 32.2. and in the next places any strong hold, or fort : because such were usually built upon rocks, and from their fuch fituation, receive much firength. See on chap. 16.1. And for that to fuch places, in time of trouble and danger, men are wont to retire, and therein much to confide: (Prov. 18.10, 11.) Hence by a metaphor, that is called a mans rock, wherein his frength confifteth, and whereunto he truffeth, Pfalm. 18.2 & 31. 3. and 42. 9. Some therefore, here, tender the words, his rock, that is, his strength, faith one; his forces which he confided in, faith another, thall pals away, that is, shall fail, for fear shall periff; as lob 3,4.20, & 36.11. But others taking the words in a fenf energer to the native afe of its taking the texts, tome, His vote for fear he shall pass by york, a frong hold, fluate in the frontiers of his countrey, or as some, bis strong holds, collectively, and indefinitely, which for tear he should not dare to stay in, but pass by, to arrive at some surer place of retreat, as to Niniveh. Of which others understand the words, and read them, as our English hath them, To bu Broag hold, for fear he shall pass over that is, to Niniveh, his chief city, and of greatest thrength never thinking himself in fafety, until he gat thither, ch. 37.37. Thus the wicked fleeth, where none purfueth, Prov. 28.1.

and his Princes shall be asvaid of the Ensign] Some read the words, his Princes shall be asvaid of flight: That is, as some with the old Latine, Shall flee with fear: or, as others, Shall be terrified with the flight of their King. And it is true, that the word here used, hath in sound some affinity with that of flight; whence some ambithat if they espied but an ensign on some watch-tower, by the that it they elipted but an enting no some water-tower, by the way, (as ch. 3.0. iv.) shough within their own country, they flould be afraid, as if some troops of fouldiers were purfuing them: or, that they should be afraid, as men are wont to be, when they do indeed see an enfign, with some hostile forces making towards them: Supposing the note of similitude to be here wanting, as before, ver. 8. Others, that they should be stricken with sear, at the fight of those wonderous signs, and miraculous works, that God had wrought for his people. Or rather, (for I finde not this word any where so used) of the Ensign, or Standard, that God, by his Angel; had lifted up, in the flaughter of their fellows: for this is spoken of fuch of them, as had escaped and survived the bitter brunt of that battle, in which the Angel came down, as with Gods Standerd, a-

Verl. 1. B Ebold a King Shall reign in right confines, and Princes Shall rule in judament] Whether this Chapter be a new Sermon, or Prophecy, diffinet from the next before, or belong to it, and have dependance upon it, as well it may, yet is not lo clear. Prov. 19.6 as the word, Lord, with us, alfo in its first original, is faid to import; and the term among the Greeks, commonly given to great Potentaces, implyeth as much, Luk.22.15. Churl] The word here used, and not else-where found, seems to be much, if not altogether the fame, in fense with the former the original of it, is uncertain; one of the Jewish Criticks faith, it comes of a word, that fignifieth, to contain, as a measure doth, and confequently to measure, ch. 40.12. 1 Kings 7.26, and would have it import one that doth all things, as by weight and measure, taking and keeping account of every trifle, and not parting with a grain. or a crum, above weight or measure, such an one, as with the Greeks is termed, μικρολόχ . & Κυμινοπρίευς, one, as we say, that will cleave an hair. Another of them, though not unwilling to derive it from the fame root, but in another notion, as it fignificth, to contain, that is, keep in, Jer. 2. 13. & 6.11. Yet, rather, fercheth it from another of no unlike notion, that fignificth, to restrain, and that up in prison, which is thence, also, so termed, ch. 42.7. Jer. 32 7. & 37.4. and fo it should have, in it, a notion of tenachy, and de note one that hordeth up his treasure, and keepeth it with him, as imprisoned. A third faith, it fignifieth one that hath those words imprifoned. A third latth, it ignificts one that hath those words rife in hismouth, mine own to my felf: alluding therein, to a faying they have among them, four Elau's words, to his brother Jacob, Gen. 33.9. of four fores of men: the first, of those that fay, hime thine, and thine mine : and that is, the way of the world. or the way of tride, and time mine and that say, Mine mine, and thine thine thine and that is the middle fort, Efan's way. The thind, that say, Mine thine, and that is the middle fort, Efan's way. The thind, that say, Mine thin, and thine thine own and that is the Chasses (they might have said the Nadibe the bountiful mans way. The fourth that (av. Thine mine, and mine mine own : and that is the wicked mans way. Now either he meant it of the second, and then the Citay should not be so bad, as the Nabal, as his fellow Rabbi holdeth; or of the fourth, and then the one may well be as bad as the other, as, in likelihood, there is little difference between them the Prophetsmanner being very frequently to deliver the fame thing in divers terms. See chap.

And I flippose it, therefore, to be as well as the former, a title of bonor; and concar with those, who in their verificons, exhibite the no le, in the one place, and thy mobility, in the other. the term of time, here described, concern the cutrance into the calamities,here foretold, or the continuance thereof with them Some suppose the former, and hence gather, that this prophecy was delivered about the twelft year of Ezckiahs reign, lone two year before the Affyrian invafion, when all feemed quiet, and well grounded for future firm peace, the neighbouring adversaries subdued, and both Church and State setled, 2 Kings 18.7, 8. 2 Chr. 32.1. Others suppose, rather, the meaning to be, that this calamity, caused by the Assyrian incursion, under Sennacherib, should continue for note then a year, very neer two; but should within that compass, be circumscribed. And indeed that so it was, may appear by conjustion of the times for in the sourcenth year of Ezekiah, Sennaputation of the timestroi in the fourterin year of useam, sensa-cherib invaried the land of Judah, a Kings 18.1; and not long at-ter his departure, Ezekish being at deaths door, I adwith promife of recovery, and of fecurity against the Allyrian, or any otheral-verlay, a leafe-part of his life, made him from Cod, for fiften years, then we ensure a superior to the configuration of the property years, then we ensure a superior to the configuration of the property of the configuration of the property of th unheard of miracle, chap. 38, 1,5,6,8. Now Ezekiah reigning but twenty and nine year in all,2 Kings 18.2. there cannot well be two entire years, between the thirteen years before the accesse of Sennacherib, and the other fifteen after his departure. And I concur therefore with those, who conceive, in thele words, to be contained,a just limitation of that calamitous time, that lasted during the abode of the enemy in their land. See ver. 15. And this is well subjoyned to what went before : for the cities fituate in the lower grounds (men, in times of peace, regarding wealth, more then ftrength; and revenue, then defence) were much better watered, and the grounds about them commonly more fertile, as we fee it with us alfo, then those above upon the higher parts of the hill. God therefore promifeth, that as they should have opportunity, to till those rich and well watered grounds, so by his bleiling upon their labours therein, they should receive rich crops from them, that should make them happy men, Lev. 26.3-6. If ay (faist thou) (but they are but vain words) I have counsel and strength for mar I in these words, his intendment seems plain to be this, to upbraid him with vanity, and condemn him of folly, if he suppose himself able to match, much more, if to out go his Master, either in policy, or in power, being so descrive in either: but the manner of speaking, being very concile, maketh the sentence not so clear.

I fay (faift thou) These words, fails thou, must of necessity be supplied, if we retain the reading, which the text here exhibiteth. But in the Hiltory of the Kings, a King 18.20. it is, not, 1 fay, but, Thou faift; the letters the lame, and the points or vowels also, bilt, 1001 fails the reters the state, and the points and this if we follow, no supply at all will need.

Thou fails, that is, thou mayst say, peradventure; though it be folly for thee so to do: an indicative form in a potential lende: as Num.23.10. Nch.6.6. Eft. 5. 14. Job 37.23. Chap.26.9,18. Yet fome would have it spoken by Rabshakeh in his own person, or in the person of his king, I say, it is but a vain thing, for thee to say, or think thus, or thus : or, as some of our former versions ; I faid, furely, thou truftest in vain words : supplying that of trust, from vera. But I rather take it to run here, as in the flory whence it is

but they are but vain words Heb, a word of lips; that is, far fome, a word, that cometh from the lip only; that which he could not freak from the heart; as being confeious to himself, of his own deficiency in either: so it should be, not unlike that, ch. 29.13. of honouring God with the lip, and not with the heart : but it feetis rather to import vain and windy words, and the lip, to be opposed here, not so much to the heart, as to the hand; words without fruit, or effect; and may well be rendred, matter of lips, idle talk onely; for the word, word, in Hebrew, doth often lignific matter; as it is also rendred, Prov. 16.20. and 25.2. So Prov. 14.23. the word, or matter of the hand; and profit, or advantage, faid to come of the one; nothing but want to proceed advantage, laid to come of the one; nothing but ment to proceed from the other; and, a man of lips, fob triz, is just for, attalkative many; for one that talks much, but proved nothing. Not can I the accord, therefore, with thole, who by a wird of fur, per understand telephote; because lip feems to be plut, not for thirdles, lob 1: 20, yet to the General with the control of the lips, as Gent 1:1. But foome of our formet Venfusir riender the words, thus, but countell, and firmith are for war; as fooken by Rabinskeh, but to foolingly in way of addire to Excikin, not to e ly on vain words, that would fland him in no flead; but to confider ferioufly what want he had, as well of good counfel, as of forces and arms, being both alike necessary for war. See Prov. 20. 18, and 24.6, Luke 14.31. And there want not those, who read the whole passage in one continued tenour. A learned interpreter tendreth it, and he read it before the Lord: and a word, al most the same with that here used, differing onely in the diverse most the same with that nere uses a saftering oney in the elected placing of a point (as sibboleth, and Shibboleth, Judg. 12.6.) fignifies formerime, to expand, Neh. 8.8. whence some have thought, that the Phasises had their names but neither is that here used, nor is either of them found used for to read.

Some suppose, that both this, and the word Seraph, do in the first place signification celestial sprits, that minister onto, and attend upon the most High, the Soveraign Lotd of heaven and earth; and it seems to be, nor improbable, for whar other could, or should be those for termed?

Gen. 3, 24. Ezek. 10.3, 8,9. Though I conceive not on what ground It should be affirmed, as by some it is, that either of their kdow-kdge; or the abundance of it, they should be so termed, there being fomewhat indeed in the word, that may fignific abundance, no thing that hath any notion of knowledge. But the word here, as al to in the flory of the furniture of the Sanctuary, and eliewhere, is most commouly used, for certain symbolical images, whereby those celestial Ministers, were in a bodily shape represented, xod.25.18, 19. & 26.1.31, 1 King. 6.23, 32,35. Others, and fo most of the Jewish Dectors; Suppose them to have been, as we decipher them, like winged boys: and their Criticks, some of them, would have them so termed, from the particle of fimilitude; and the word rabe, or rabia, that fignifies a boy: for the figure they give them, it is not improbable; but for the notation of the word, there is little likelihood of it: the word though in Chaldee and Syriack, fo fignifying, yet in Hebrew never fouled. Nor do I suppose, that any instance of the like composi-tion can be produced. The first letter seems radical, and the word to have been deduced from some Hebrew root, though now unknown. That feems more probable, that some other have, who suppoc, that by a transposition of letters, (whereof many inflances may in the Hebrew be given,) the word cherule, may be deduced from the word Reteibe, that figalises a chairs, both, for that the Chrules, or Angels, are called Gods chariots, Plal. 68. 17. and God is faid to come riding on a Cherub, as a Prince, or Commander on his horse, or in his chariot, Plal, 18, 10, and that the name of a chariot , is expresly given to the Cherubs, here mentioned, 1 Chr.28.18. for they are thefe two that flood fixed on the lid of the Ark, called the Propiliatory, Exod. 25, 18, 19. from whence God spake to Moles,

But other of them, rether, I dry up all with the very tooting of them. And he speaks it, as if the rivers were dried up in a trice, fo foon, as he fet but the fole of his foot on them; as Jordan was divided and dried up fo foon, as the plants of the Priefts feet , that bare the ark of God , touched the water thereof, Joth. 3.15,16. For it feems to come far thout of the Affyrians boaffing, that some would have the meaning tobe, that he dried up great rivers, inclosed with high and throng banks: as Cyrus did Gyndes and Euphrates, Herod. lis. 1. Jer. 50 38. to make them fordable for his forces.

Some lewish Criticks would by the word here ufed, underfland I gypt; because the name in Hebrew comes neere unto it: as it he should brag that he haddried up the rivers of E gypt , which God threatens to do, Chap. 11.15, but that another of them, not undeferredly, control of the whole passage; some render in the suture, I will dig and drick waters, and with the sole of my feet, dry up all the waters of the liege; as aiming at lerufakm , and the preparations made by them , to furnish themselves with water, expecting a fiege, Chap. 21.9, 11. and the comfes taken by them to keep his army from water, by obstructing the springs that might afford it them, a Chr. 32. 3.4. He boastest therefore, that their endeavours, in either kind, thould prove but loft labour; he would dry up all their flore, and provide water fufficient for his forces, by digging deep, and bringing of fprings to light, where none had ever been feen, or dreamed of before. And this fo well fuiting with the flory it felf, would not lightly be rejected. Howfoever the words be rendred or read, the scope of this his vain vaunting, is to imply, that no place had been, or could be able to hold out against him, who was able, by his power and policy, to overcome all difficulties, to level mountains, and dry up rivers, for the | 32.14. 1 Macc, 4.38. freer passage of his forces, and yet to furnish them, al o, with all negaliary provisions, where they were most unlikely to be

But it is more probable, that from the name of the City, the Greeks, at first, forged the names both of the father, and the fon. Nor can I therefore be induced to concur with that learned Writer, who prefuming, not Nimrod, but Chus, the father of Nintrod to be Ninus, supposeth, that Nimtod building this city, called it, not by his own, but by his fathers name Ninevel, as Ninaveh, that is, Ninus his habitation, or dwelling place fince, neither is it the manner of those oriental tongues, to put the governing word, after the governed; nor doth it appear, that either Culh, or Nimrod, were either of them, so anciently known by the name of Ninus. But this may easily be avoided: for the promise there feems to be, and well may be, of a continued prefervation and protection, for the future. See on the place. Others, therefore, after Joseph the Jew, in his Antiquities, 1.10.0.3. hold, that this fickness befoll Ezekiah, thortly after Sennacherib's defeat, and departure thereupon. Now all this might very well have been accomplished within the fourteenth year of the reign of Ezekiah, especially if the invasion were made about the beginning of the yeare; but allowing for the dispatch of them some good part of the inteenth; and this fickness tollowing very thortly thereupon the reckoning of lifteen years enfuing, will well confift with twenty nine of his reign fully compleat, Of the phrase it self, see ch.4.1,2. V. 6. And I will deliver thee, and this city out of the hand of the King of Affyria; and I will defend this city Hence some infer, that this fickness of Ezekiah befel him, before the diffolution of the Aflyrian camp. But of that there is no necessity, in regard of ought here Spoken. See on ver. 1. The promise before made to them, in the time of their diffres, by the Affyrian forces, chap. 37.35. is again here renewed, to give Ezekiah affurance, not of his life onely to be prolonged, but of peace and tranquility to be continued unto him, together with it. For Ezekish might have some doubt, left sen-nacherib, though having so great a blow given him: yet might in some space of time, recorer himself again, and either he, or some of his successor, might return to moselthim, and the state again, out of a defire to be revenged for the former discomfiture : and that after his decease appeareth to have been, in some fort, effected, 2 Chron. 33.11. Now this to meet with, and to cafe Ezekiahs mind of all fuch mildoubt and dread : God promileth to continue this his protection, both of him and his city : and to fateguard them, a gainst what loever power any King of Asyria should be able to raite, or make against either. That which Sennacherib made account was more then God could do, Chapter 36. 20. & 37. 10, 11. fo the Sun returned ten degrees, by which degrees it was gone down] By the Sun, fome here would have underflood the shadow which the Sun made on the Dial; because it is said to have gone back by fo many degrees, as it had gone forward on Ahaz his Dial, And fome hence would infer that the course of the universe was not inverted, or altered; but the shadow, only, upon the dial; called here the Sun, as the windows are fo called, by which the Sunfhine is let in, Jer. 15. 9, but neither can it well be conceived, how the shadow made by the fun, flould go backward, or forward, without the fun ; nor could forraign people, in remote place, have taken notice of it, had no alteration been in the course of the universe, See chap. 39.1. nor is any fuch thing found, as is intimated in that place of Jeremys nor is it necessarily to implyed in the text, that the Sun went forward, or backward, on Ahaz his Dial, either here, or, 2 King. 20. 9-11, where there is no mention of the Sun, but of the Shadow onely. Though it be true, that the retrograde motion of the Sun, appeared by the shadow upon the Dial: for there may well be a transposition of the words in the text, as our English hath con-ceived it, or the text be otherwise expounded, as shall afterward

returned | Or, went back ; as is more fully before expressed, fo many degrees, as it had already gone forward. Which fome suppose to have been done in an inflant; and then the day so much longer then ordinary, by so much of it, only, as was already spent. Others are of the mind, and to the most, that the Sun went back in his ordinary pace, and then the day must be twice so much loager then ordinary : as much time being fpent in his return to the point, at which he role; as much more in his coming back to the point, from whence he had returned.

ten degrees] What space of time was by each of these degrees described and limited out, is uncertain. Some would have them whole entire hours ; ten of such twelve, as are mentioned, Joh. 11. and then should that day have been, if the Sun went back fud-9. and then morate that depth etc., if the bull well back liderly, two and twenty hours long; if an ordinary pace, (as they feem to hold) thirty we hours long. But against this is objected; Frist, that if it had been of this latter and larger frze, it had been longer them that, when the Sun stood still in Joshach's day; for that songer then that, when the sun troop turnin Jointains day; for that was no longer then two days, at most 3, a day of four and twenty, boint 3, 13, whereas this should be, within four hours, as long as three days; and yet of that day, it is faid, that there was none as three days; and yet of that up, a beither fize will fuit with the choice that Ezekiah was put to, of having the Sun go ten degrees forward, or backward, 2 King 20.9, 10. For if they wereen tire hours, the fun was already within two hours of fetting; and could not go, therefore, above two fuch degrees forward; nor by above two hours (which his going forward must do) hasten the night. Others, therefore, conceive these degrees to have been but half hours; and that is the opinion most received; and so the day should be of seventeen hours, if the Sun retired in an instant. And fo fome define it;or of twenty and two hours, (two only fhort of Jo-fhua's day) if he kept to his pace for ten degrees, that is, five hours of the day were path, what time this miracle was wrought. So that it was about their life hour compleat our, eleven. Ten degrees, that is, five hours were spent in his regress, and as many in his renewed pro-gress, unto the point from which he retired. All which put together, make twenty two hours. Yet there want not those, that allow each degree but a quarter of an hour, and fo enhaunce the number of argree has a quarter of an nour, and to emissione the number of the daily from twenty four to fourty eight; fo the day should be cut thorter by five hours, at leaft. But it is not very probable, that the day should be minted into fo niany small flireds on the Diall. The Jewish Doctors tell as, (but that is one of their tales) that the day was thortned, just fo many degrees at Ahaz his death, as it was lengthened at Ezekiah's re-

by which degrees it was gone down] Heb in the degrees, or, by the degrees which it had gone down. And according to our reddition of it, therefore, flould be a transpolition of the words in the text; by the degrees which; for, by which degrees. Some following the order of the words, as they lye in the text, render them, in the degrees : and expound them, in the Dial, thence interring, what above is related. And it is true, that in the foregoing words; the dial of Ahaz his fetting up, is called, Abazhis degrees: by a Synecdo. hical form of speech, whereby the part is put for the whole, because it consisted of a gaomon:or, index, and a table, or, plane, marked with those degrees, But the word is there without the article : whereas it ishere, as in the beginning of the verse, with the article pref x d : and is to be taken, therefore, rather for the degrees themselves, wherewith the motion of the Sun was measured, and discovered upon the Dial, And the words therefore may well be rendred, by the degrees which it (to wit, the Sun) had proceeded.

it was gone down.] This if we take the word flrictly, and under-fland it of the Sun: it should imply, that the Sun was then in his declination, and that it was past high-noon, or mid-day, so many hours, as those ten degrees made up. So he should return, not to his

I have ent off like a reaser my life] He returned to the borrows a feendeth, as the Sun gets up, and afcendeth again, as the Sun de-clines and goes down. So the Initacle might commence from some part of the fore-noon, according to the degrees spent, and past, trom the Sun-rising. But the Dials seems to have been no mural, or vertical, but an horizontal one. And some of the Jewith Writers tellus, that it confifted of an halteirele, whereon those degrees were figured with an index, or flyle, fituate in the midft thereof; the shadow whereof, falling upon the verge of it, shewed, how, by degrees, the day went away. And to meet with such doubts, the plainoft way, is, to expound the word rendred, gone down, not frietly of declination, or descention, but of progress, simply considered, without any notion of afcent, or descent properly so termed. So ye may finde it used, Judg. 11, 37, & 15, 11, 1 Sam. 23, 6.2 Sam. 23, 21, 2 Kings 8, 29, Jer. 18.2, & 22, 1, and so it may well be rendred here, which it had paft; or, by which it had gone forwird.

See ver. 17. or, as fome other, my life is cut off by me, that is, by God, fome occation, by me, given him fo to do, though the doing of it be fore against my will; as of Judas, it is laid, that he purchafed a field with the reward of iniquity, Acts 1, 18, though purchaled, by the Priefts, not by him, with the money wherewith they hired him, Matth. 27, 6,7. I suppose it is to be referred tather to his estimation and account of himself. I made no other actonis effimation and account of nimes. I made no other ac-count, but that my life would be focut off. I flood bring it fuddenly to an end. See ver. 10.2 Cor. 1.9. The word render, cut off, is no where elfe found in Scripture; (though in the Chalde Paraphraft, fometime) only a noun derived from it, that fignifish tutting off, Ezek, 7. 25. and the name of a beaft, chap. 14. 23.&

See Job 4, 20. there is a pailage from perion to perion ; as chap. 21.10. & 25.5, 6. & 31.7. Amos 9.1. and some would have inserted, I faid; as ver.10, 11. but that is needless.

Whereas I had conceived some hope of holding out till the next day, my discase, or God by it, did so grievously handle me in the night, as if fome fierce lion had crufht all my bones to pieces : that that hope of mine was utterly datht and quailed. Of the similitude, see Jer. 50. 17. Lam. 3, 4. fore pains are by the breaker of bones of expressed, Job 7.15, Plalm 6.2, and 51. 8, Prov. 14. 30, and

from day, even to night, will thou make an end of me] See the fame, ver. 12. From this reiteration of the fame thing again, some gather, that Ezekiah was two days in this extremity; that in the former verse, is expressed his first days thoughts; in this, his seconds: But this observation is of no great certainty. It may rather intimate the fixedness of his thoughts, and the vehemency of his affection thereupon.

V. 14. Like a crane, or a fwallow, fo did I chatter: I did mourn as a dour] This, some apply to his prayers, as very quick and fliort, by reason of his pains. Others understand it of his speech, so suspend ed, with the violence of his difease, and the excelle of his grief, that he was not able to utter any articulate voice:as Pfalm 77.4, but this his prayer recorded, ver. 2, doth futficiently controll. The meaning feems to be, that his pains and grief, both joyned together, did wring from him fuch fighs and groans, in the bemoaning of himfelf, as might well be compared to fuch kind of noife, or mournful founds, as these Fowls, or their young ones, or their dams, when their young are taken from them, are wont to make.

See chap. 5.6.& 17.6,14.& 27.7.& 18. 24. and that they are the names of two feveral Fowls, and both such as change their abode with the Seafon of the year, appears from Icr. 8.7.

And the rather hereunto encline, because of the Egyptians fable of their Isis, that was turned into a swallow. See Plutarch, of Isis, and Ofiris, and Symachus here fo renders it.

a [wallow] The Hebrew word is Agur, or Gnagur (as some pronounce it) both here, and in Jeremy, not clearly (astome pro-nounce it) both here, and in Jeremy, not cle-where found, which fome of the Jewish Writers would have to be a finallow; some, lone of the Jewin wraters would have to be a france vice apie. Yet others rather suppose it to be a crane; which from the Oreck yastar 9, we so term, whereunto they are the rather in-Greek person, we to term, wherecomes neer it, but the Latine, duced; because not only the Greek comes neer it, but the Latine, Greek, comes in a manner full honde to it. And again, for that by a transposition of letters, in the holy language very usual, (see ch a transportion of fetters, in the most singuage very must, (fee th. 36, 16, 30.) it feems to come from the word Areg, or Gnaveg, that fignifies to bray, as Deer do when they want food, either patture, or fignifier to brity, as ther ao which they want rood, either patture, or water, Joel 1.120, to whose voice, which a cranes, rather them willows, telembleth, doth the Pfalmist compare his groaning after God, using the same term of either, Pf 42.1.

Chr. 32.25, 26.31. It is here instructed to make way, and give some light unto some enting Prophecies, concerning the Babylostan captivity, and the deliverance from the fame.

At that time Shortly after Ezeklahs recovery, 2 King. 20.7.
Merodach This was the name of one of their idols, Jer. 50.2. As it

was an usual thing among Gods people, to insert some of Gods titles into the names of their children; to the manner of the Heathen people, was to impose their idols names on their sons, favourites, and tollowers Hence Merodach, here, and Evil-Merodac, 2 King. 25. 27. See Dan. 1.7. & 4.8. As alfo, Rom. 16.1. 14, 15.1 Cor. 1, 12. Phil. 2.25. Thell I. 1. His name at large is supposed to have been, Merodat-hen pad, whence Mardohempad, in Ptolomy. For that learned man feems to be miltaken, who conceives this Merodach, to be Nabopolajar, who understanding that so many degrees the Sun went back, in Ezeklah's Dial, began thereupon to divide the day into hours. Nor do I finde, where the Author he cites, faith ought of the latter; and he is expresly against the former. might add, that this croffeth the relation of the Rabbines, of Merodaes being accustomed to eat the third hour of the day, and then fleep to the ninth, and that on the day that the Sun went thus back, he found it morning fill, when he awaked. But the one feems to be as Authentick as the other, He is called Berodae, 2 King, 20.12. when ther by a flip of the Scribes pen, the letters being much alike : or by a change of the letter, in common speech, is uncertain. But so Dimon sor, Dibon, ch. 15.9. Andthis mans nephew, as is supposed, commonly called, Nebuchad netfar, is in Jeremies Prophecies, oft termed Nebuchadretfar, Jer. 25. 1.9 & 37. 1. & 39.1. Some would have Merode to be a common name to the Kings of Babylon; as Pharaol, anciently, to the Egyptian Kings, and Ptolomy, in latter times, Candace, othe Ethiopian Queens Acts 8.27. and Cofar, to the Romane Emperors, Ad. 15.10, 12. But hercof is no great probability, nor any good proof made See on Jer. 50.2.

And there may feem to have been two special causes of this his affection his repute and his profit. For he deemed it, a matter of no small repute and honour to him, that the report of what had befallen him, and God had done for him, should flye so far abroad, and that hereby occasion was ministred, to make his state and wealth further known, to such a Potentate, as he was. And again, he might suppose, that compliance with such an one, might turn to his advantage. For the Babylonian might be induced to attempt fomewhat against the Afmanyonian might be induced to attend to measure against the hi fyrian, whom he perceived that he bare no good aftedion unto, if he fhould be offering, at any time, to model him again. Certain it is, that fome imatch of elation and finite aftedion was in it. See a Chr. 32.25,31. and fee Davids like infirmity, or, as himfelf termeth it, folly, 2 Sam, 24.1 10. And it feems to be derived, from a word that fignifics to pound, or, beat to powder; because such drugs and spices, are wont to be so dealt with to make confections of them, Exod 30.34 36. Howbeit, some of the lewish Doctors would have it a more comprehensive term, and to signific, as ours, in the text, render it, any precious things, of what kind loever, Which fome, the rather, encline unto, because mention is made, afterward, of spices, apart. But the one word, may be here used of odoriferous drugs, the other, of spices, for other uses. and comprehendeth the dust of the earth in a measure?] Or, or can comprehend(as before) the dust of the earth (that is, the main body of ir, as cha, 26, 19 Dan. 12.2.) in a measure, or in a tierce; as the Hebrew word intimaterh, derived from a term, that fignifies three, for notation correspondent to the Latine triental : it feems by the use of it, Pf. 80.5. to have been a drinking, or quaffing cup, as well as a mea-fure; of what capacity it was, our Jewish Masters tell us not a some of them fay, it was a great meafure, and cite the Pfalmift, not improbably, to that purpose, so termed, because it contained as much as three leffer. Other of them fay otherwife, that it was no great meafure; but it was so termed, because it contained a third part, only, of a greater vessel, or cask; and the one sort, therefore, would have it, there, to comprehend the three captivities, lehojakims, Jehojacins, and Zedekiah's, the other, to relemble their abode in Babylon, as but a third part of their fojourning in Egypt. Thus they leave us in meer uncertainties. I suppose it to have been used tor a cup, with the former, of capacity more then ordinary; and by the notation of it, a cup of three, as containing to much, as might well make three draughts or fo much as three of those cups, that they were ordinarily wont to drink at one draught : but for a measure, or vessel, to mete out materials, whether liquid, or fo lid with; to have been among those that were reckoned of the least ordinary size; that might well be deemed a forry measure to deliver earth out by, or might well be deemed a losty measure to define the standard, or other like traff, yea, or matter of more worth, that yet might be reputed of a deep and large fize, either to offer a man to drink of, or to enforce him to take down, when the liquor is very unpleafant, and fuch as he likes not: it must here of necessity, to import no fuch great vessel, that it may, with some proportion, answer the fift, and the span. Nor can I, therefore, so easily accord with that learned man, who would have it to fignific the third part of an Epha, as the Seah is faid to do; (fee Chap. 17.8.) because by a word neer unto it,

Chap. xl. he shall Or, will as before, will come; and so after, will gather, will that measure is in the Ethiopick language expressed, Mat: 13.33. The old Latine rendecth it, with three fingers which would fuit well with the former, if there were any good for it; but none appear.

and weighed the mountains in scales, and the hills in a balance]Or, and weigh out the mountains by a beam , and the hills in feales, or in a ballance? there are two words here used, which, sayour Jewish Masters, significatwo forts of engines, or instruments, used for the weighing out of commodities, or wares, the one for greater quantities, the other for lesse: but that is somewhat too generall. And I suppose they have no other ground for ir, fave because the mountaips are faid to paffe the one, and the hills the other they are both found together, Prov. 16. 11. where the words are rendred, a just weight, and balance, but would rather be a just beam, and balance: the weigh, and valance, but wouse variet or a just oram, and valancettee former word, save in those two places, no where else found, is, by some ofthem, said to signific (and that not improbably,) such a bram, as is used to weigh commodities, by hanging of a stone, or other weight at the one end, and them aterial that is to be weighed, at the other, it being marked with certain notches, or figures, whereby the other, it being marked wanterram novines, or neures, whereby the certain filter of the weight may be differred, fuch, 1 am told, that they use of with us, to weigh hay in the field: the latter word more common, and used after again, verse 15. seems to answer the Latine bilants; whence our balants, and is so termed, from the two scales, hanging at either end, which from the similitude of them, the Latines call dister, the Hebrews, ears.

The meaning is, that God can as easily life up the highest and greateft mountains that are yea, all of them together, great or fmall, as a man can do any ordinary weight, at a bears, or in a

directeth the Spirit of the Lord] The word fignifieth, fornetime, to mete out, as ver. 12. fometime, to dirett, or carry a thing cavenly, as mens works are, when they are cut out by rule, and fquared by line and level. So Ezek. 18.25,29 and 33.17,20. and fo most here take it: fometime, to weigh out, as Job 28.25.or, to ponder, taken metaphorically: and by weighing, or pendering of things, to explore, or examine them: or, by fearching into them, to attain to an exact knowledge of them: as by weighing of things in the balance, or at the beam, men come exactly to know their weight, Pfal.6.9. Dan. 5.27. So it is taken, Prov. 16.2. 21.2. 8. 24.12. So the ancient Greek by the Apostle retained, Rom. 11.33.1 Cor. 2.16. rendreth it here, who hath known the Lords mind? Who can so dive into his secret thoughts, or purpoles, as to come to discover what he intendeth to do, or by what courfes he meaneth to carry on what he in-tended he had courfes he meaneth to carry on what he in-tended he had he way also divers go. Howbeit some of the Jew-ish Doctors, to bring in the sour elements, by Spirit here understand the air, as it feems to be taken, Prov. 30.4, and as for the wind, Joh. Some, therefore, of the Jewish Commenters, tead this pallage thus, the Carpenter encouraged the founder, or the metallil that I mooths the hammer, for smiting on the anvil, or, for smiting by turns. And to confirm this , they call in the Chaldee Paraphrafe, from whence they gather, that the former word patrifb, should figuite an hammer of the greater frac; a fledge, the latter, to wit, paam, one of a smaller frac; it being, say they, the manner of Workmen, to make use of the greater, for the beating out of their work at first, and of the leffer, afterward, for the polifing of it. Whereas, other of them would have the former word to fignific the leller hammer; and the latter, the bigger: that which is more agreeable to the words of the text, wherein the former feems to be the polithing hammer. See Chap. paum, for any hammer at all, either bigger, or less; but expoundeth it by the word aimnd, that answereth to panm, as it fignificit; a turn, or courfe. It ufeth a word, indeed, withal, that in the Writings of the Talmudifts, imports an hammer, of any fort or fize indifferently, whither one to beat iron out, or one to crack nuts with; as by the places, out of their discourses produced, appears. But that seems to appertain to the exposition of the fore-going word holem. Nor do I find any place alledged, either out of facred Scripture, or Talmudical Writer, wherein the word is taken, either for hammer, or anvil. I suppose, therefore, that this pallage may well be thus rendred, and the imoother with the hammer, the imiter by courfe ; that is, he that polithed the work, him that wrought at the forge, Heb. Ver. 1. This Chapter, and the two next enfuing, which together make up but one Sermon, are much of one fub ject, relating and fore-telling the bleffings that God would conferupon his people; partly, by Cytus, and partly, yea, principally by Christ discovering the vanity of idols, and fortulates of idolarers a raxing his people for their incredulity, blindness, executes, and obstimacy, the causes of their captivity; and yet promising pardon and restitu tion, upon their fincere repentance.

This name he had from a Persian word, in that language said to signifie the Sun; which they honoured as a God; and some suppose that this word Cores, or Cyrus, was derived from the Hebrew Cheyes, or Chares, that is used sometime for the Sun, see on chap 16. 11. and Jeremiah 19. 2. it being not unufuel with the Perfians and Arabians, 28 they likewise here incited all to the like, upon the redemption and some learned affirm, to turn the Hebrew Chet into Capb. That the Ch'ap.xlv. Sun is by the Persians to called, Plutarch, in the life of Artaxerses, from Cresias, and upon his credit, relateth. But Joseph Scaliger, in his cmendation of times, 1,6, suppose the that Cresias, being a Greek, was millaken, by the familiande of found, between Corfled, which, in mittaken, by the named to found, between corpied, which, in Perfick, lignifies the Sun, and corefly, which, in that language, faith he, fignifies food. Yet from the neerness of these two, some or ther learned feek to confirm the truth of the former. Howbeit, it ther learned new to communication of the content. For more tell, it may not un juffly be questioned, whether either of those words, Co-1960, or Cossibed, had fuch use, or fignification, in those ancient times, that in the vulgar Persan, they have at this day; any more, then that in the vulgat retriant, sucy in average the unit asy; any more, then the word Aphiab, which now, also, they are faid to use for the Sus. One main cause of my doubt is, because the Sun was among the ancient Persians, commonly known, called, adored, and acceled, by the name of Mithra, or, as the Greeks are wont to pronounce it, Mithras, and Mithres; which appeareth by records undeniable, out of Strabo, 1.15, Plutarch, in the life of Alexander, and of Artaxerxes, of DERMON, STEWNSHIELD THE WAY OF THE MEASURE AND A PRINCE WAY.

I find no such ancient and authentick record produced. If it be faid, that the Sun might have more names then one or two, either among them, in those times, as in the Hebrew text of Scripture it hath; that is true indeed; but some solid proof must be brought for particulars; whereby it may appear, that these were then names thereof with

Verse 1. See Josephs antiquities, 1, 10. c. 11. and so might this Belus, or that Baal and Bel, are written with the fell-fame letters, 712, the one; and 712 the other : Which if it be true, then the 73 here mentioned, wanting the middle-letter, feems not the fame with Baat, in the Chaldee dialect. Other of them fay, that the middle letter in Bel, is caft away, after the manner of the Chaldee dialect: but albeit, of the manner of the Chaldean, or Babilonian pronunciation, in some other words, some examples are produced, and in Greek and in Latine, it be a common course, to clip off, or cut out that letter, because they want ene whereby fitly to express it, as in other words Oxias, Mar. 1. 9. Esaias, Rom. 10. 20. Pharas, Rom. 9. 17. and the like; fo in this: yet neither is there any the like necessity of fo doing, in the Chaldee dialect; which is fo far from ordinary cafliering of it, that it changeth other Hebrew ones, oft, into it. Neither do I meet with any inflance, given out of any monument of that language, of Baal, thus contracted; the contary rather doth appear, by those portions of Scripure, penned in the Syriack, (which we commonly call the Chaldee,) Ezr. 4. 8,9,17, where the word "Yu" without any such contradiction, is found. Nor do I find, either in the Targum, or Chaldee Paraphrafe, as it is commonly called,) of the Old Testament, or in the Syrian version of the New, either the name of Baal, in any place, without that letter or the name of Bel, with it. It feems to me, therefore, not improbable, that Bel and Banl, are two feveral names, though by Greek and Latine writers, commonly confounded: and that Bel was a proper name, in ancient tunes not unufual ; as Bela, Gen. 36. 32.& 46.11, and other the like, & that of that name, fome emminent perfons, in divers places had after their deceafe, been deified. Whence it came to pass, that as there were divers Herculeffes, in several countries and those of several ages, and several breeds; See Tully of the deity, lib 3. and Herodote, I b. z. fo were there likewife, fundry Bels, or Beluffes, the Egyptian, the Tyrian, the Affyrian, and many more, whose pedigrees are related in Apollodorus, lib. 1. Diodore, lib 1. Eusebius his preparative, lib. 1. & 9. from Phylo Byblius, his ver from of Sancuninthon, & others: yea, therefore, many the more, becaule B I, and Baal, are both by Greek and Latine Writers, as i not denyed, fo commonly confounded. Again, that which hath been fuggested concerning this Bel, or, Belus, as being fomtime a great Potentate, and after his decease delited, may receive further trength from hence : in that as the Tyrian Belus, is acknowledged to have been no other, then an ancient King of that Country, whose cup therefore, the Poet faith, Dido drank in, to Ancas. Ancid l. 1. to is the like also averred, of the Babylonian Belus; whom Nebu-chadnezzer, therefore, called his Progenitor, in that speech of his uttered in a fit of rapture, from Megasthiones reported by Abydenus, in his Affyrian Hillory, and by Eulebius recorded out of him, in his Gospel preparative, 1, 9. wherein he foretelleth his Babylonians, of an evil that should befal them, which faith he, neither Belus my Progenitor, nor Queen Beltis, are able to induce the Fates to avert. Thus he, whereby it appeareth, that this Belus had been a King, one of his Anceftors; and Beltis, in times paft, a Queen. This Bel, there-fore, whom the Prophet here mentioneth, is nor unlikely to be that Belus, unto whom ancient Writers attribute the building of Babylon; though about that, there be no good agreement among Babyton; though about that, there be no good agreement among them. But in regard thereof, forme conclude Bel, or Bellw, to be Nimrod, fo called, at fift, Lay they, for his tebellion against his Superious, or his Peeres; afterward, Baal, or Lard, when he was fetted in his Empire, and that the Chaldeans kept the latter name of him, in their Records, suppressing the former, as containing matter of reproach. Yet seem not these things altogether so elect, as is conceived. For however it be certain, that Nimrod, at fust built

the Babylonians thus adored was fome fuch great one, as Nimrod,

two severall wayes: Some, from the time before which it was done, there I was : fo the old Latine, and they that followit ; that is, fay they, I foresaw things to come as evidently, as if I were present at the doing of them, Chap. 13.2.3. fo Joh. 8.56, but I see not how the words will admit this reading. Others, ever fince Gods charge came to me, (as Hof. 1.1.)1 have constantly attended it, chap. 21. 8. So Jer. 6. 26. Hab. 2.1. So Jer, 26, 12,15, See Ch.6 8,9. The Prophet doth many times pais suddenly, & (as may seem, to persons not acquainted with spiritual raptures, and costacies) somewhat abruptly, in the heat of delivery, from one person to another.

Those that understand it of the Prophet, take it also two feverall wayes : Some, from the time before which it was done, there I was ! fo the old Latine, and they that followit; that is, fay there I was I to the one assume, not nevy that tomowh I; that claim they, I forefast things, to come as vidently, as if I were prefent at the doing of them, (hap. 13, 2, 3) of Joh. 5, 6, but I tee not how the works will admit this reading. Others, ever fince Gods charge came to me, [as Hol. 1...] have conflantly attended it, chap. 1.5. of Jer. 6, 26, Hab. 2.1. For that is most ridiculous, that fome of the Jewish Commenters here suggest, of all the Prophets being present with Moses, on Mount Sinai, at the giving of the Law, and To Elay among the reft, Deut. 33.2.

So Jer. 26, 12,15. See Ch.6.8,9. The Prophet doth many times pass suddenly, & (as may seem, to persons not acquainted with spiritual raptures, and costacies) somewhat abruptly, in the heat of delivery, from one person to another.

The Prophecy delivered, and recorded in this Chapter, runneth on in the same strain with the former, relating the restau-ration and enlargement, of Gods Church, confishing both of Jews and Gentiles, under a type of the Jewsreleasment from the Babyan deportation : and the re-establishment of them in their former estate, with much honour and encrease, by accession of other Nations unto them; both effected by the mighty power of the Lord ons unto mem; both citedea by the mighty power of the Lord elfus the Meffins. Some by Ifrael, here, understand christ: fo called, fay some because he was of the stock of Ifrael. Which though it cannot be doubted of, much lefs denyed; yet they produce us no place of Scripture, where the word Ifrael, is ulcd for an Ifraclite, though for the body of the people, or the better part of them, it is frequently found, Chap. 43 .1.14. and 44.1,21. or, because the head of the Elect the Ifrael of God, Gal. 6. 16. who are one body with him, Joh, 17.20,21. Yet I no where find, that the name of Ifrael, is given unto Christ, for, as for that place, Luk, 1.54, which some Popus Authors produce, it looketh plainly ano-1.54. which some Populi Authors produce; it looketh plainly another ways: or, say some again, as the true 1/fast, that should wrether ways: or, say some again, as the true 1/fast, that should wrether ways: or, say some again, as the say against it, as Jacob did 14.19.6. 44.17, because in the words enturing, as by way of received the say of the say of

This to lalve, and make the text run the smoother, some thus render the words, Then art my fertext in the imoother lome thus render the words, 1000 at my fer-vant, to I frael, or, for, I frael; that is, for I fraels good; for my peo-ples behoof. Which they expound, some of Elays of whom it is que-ftionless, true: the Prophet being principally sent on Gods errand, to them, Chap. 1.1. & 2.1. Nor doth that late learned Annotators observation here, flay me from adhering to this version, who, with the Tigurine, would have, whom in thee, to be no more then, in whom, according to a good and useful rule given by him, that in Hebrew, when one speaketh to another, the pronoun affixed, following the relative, & having reference thereunto, is net wont to be in the third perion; but either in the first, if it relate to the perion speaking, as ver. 21. or in the second, if it relate to the person spoken to, as here : for although it be granted fo to be there, where the affix hath reference to the relative, by an elegant redundancy, in that language very frequent : yer is there no necessity, of admitting either that

The Jewish Masters, for the most part, are wont to follow the margent; and so do the most of them here, though some admit both. Those that keep to the text, read the words in the negative; but fo, that for the fense they concur, in effect with those, who admitting that in the margent as the genuine reading, take them in the affirmative, and read them, Ifract shall be gathered to him: for either they conceive them, as uttered by way of interrogation, and shall not If rate be gathered? as if it were faid, Shall God send his Prophet, or Messenger, to reduce a people; and shall they not first or last be reduced? or they take the word of gathering in another fense, for taking away, or defrojing, as it is oft uled,ch.4.1.& 16.10.& 57.1.& 60.20,ler. 8.13. For to pass by all other interpretations, according to the textual reading, the words may wel be thus rendred, Though, or Albeit, (as ch. 10.5.) Ifract be not gathered (that is, reclaimed and brought home unto God, a metaphor from fraying or fragling theep, as Pf 27.10.C.11 12.)or, will not be gathered; (as some of our former versions, agreeable to Mat. 23, 37) yet, (11cb. and; as c 42,25.) shall the glorious as in the eyes of the Lord, (God will have me in high efteem for the faithful discharge of my duty, and confer glory upon me, Joh. \$ 20,23. & 10,15,17 & 12.28. & 17.1,5. I thall only add what I fince find in a learned Annotator oft mentioned, who in this manner carryeth on the file of the context; but following the other reading with the negative, ren-dreth that passage, to reduce to him Is set, who is not gathered; that is, who is dispersed, and his thepheids look not after him, And this verfion feems also very probable, as rendring a reason, why there was great need of fending one to gather them. Thus, according to the reading held forth in the text. Howbeit, the Jewith Commenters, and not a few of our own Interpreters also read them, as spoken by way of demand: Is it a light matter for thee to be my fervant to this purpole So the Lewith Doctors expounding it of Elay; of whom God thould demand, whether it were a flight matter to be put upon such an employment. For that which fome would have to be hereby intimated, of the Babylonians feeding one upon another for famine, during the fiege of their city, is of no probability; fince that, as Herodotus reports, they had laid in abundance of victual before, as expecting a far longer fiege then it proved; and on that very day, wherein the city was taken, they had a great general feafting, both in publike, and private, throughout the whole city as those two Writers both record. Where is the bill of your Mothers divorcement, whom I have put amay ? The people of the Jews, during the time of their captivity, feemed to be in a manner divorced from God, and by God, whom they had been formerly joyned to in marriage, Jer. 3.8,14.5ee cha. 49.21. Now whereas, among that people, many times, for very frivolous occasions, men were wont to put away their wives, Matth. 19.3. but the Law then commanded that a writing, or bill of diorce floud be given them. But howfoever it be for the latter, in allulion to the thing it felte, God here calleth upon his people to produce the bill of divorce, by which he had discharged them, and himselfe of them as implying, that either none fuch could be produced, for that he; had not, in any fuch manner, put them away, but they had wilfully, of their own accord, some away from him, Chap, 1.4, Or, if any such were extant, and could be produced, it would thereby appear, that the breach began on their part; that they had rather torlaken him, then he them, and that it was not for any flight occasion, but for their difloyalty, that they had been cast off; Ici.3.1, 2,20. Hof. 2 2,5, For whereas some Interpreters would so mince the matter, asit the Jewish people, though they had been, by God, severed, as from bed and boord only for a time, during their deportation, and the destruction of the Temple : yet they had not been divorced from him, nor had joyned themselves in marriage to any other, though they were defiled with many, which therefore nothing hindred, but that they might be received again by God, upon their return. Yet the contrary hereunto appears, both that God had put them away, as by a bill of divoice; and that their carriage had been fuch, as came within compass of that Law; and that God, notwithstanding as not obliged thereby, nor taking advantage of it, would again receive fuch, as he had so repudiated upon their return, Jer. 3. 1, 2, 6, 7, 8, 12, 14. Nor will that hold, which the Jewish Dectors have here, that leremy freaks of Ifrael, the ten Tribes, that were never to re turn, or have King again, and are therefore, faid to have had a bill of divorce given them; whereas Elay speaks of ludah, that were to return from captivity, and to have Methas for their King : For return is both proffered, and promifed, as well to the one, as the other; and Christas a common King to them both Jer. 3. 12: 14.& 31.1,4-6.Ezek.37.16-25.Hol.3.4,5. Arenot thou it that bath out Ralab] Or, that did out, or how Rahab t that by Rahab is meant Rypt, to far as I know, no doubt is made. But now Egypt came to be fo termed, is not ultrogetter fo generally agreed. Most are of opinion, that from her pride, and power pretended, at leaft, (c.30.3,3.7.) that name was given her. See Brek. 30.6 and the word may well import, either. See Job 9.13. Pfalmgo.13. Howbeit, a learned Authtor conceiveth Egypt to be fo term ed, from the houre, or form, of the lower part of that country, which the River Nilus, having with one entire fream attained unto, doth at the head thereof, where it is sharpest and narroweft, divide it felf into two train channels; and fo flooting down on either fide of the land, growing wider and wider, encloseth it in that manner, till it arrive at the Sea, that it makes it to be of a max manner, the neutrine at the Dead, strate makes it to be of a pyramidal, or triangular form, with the point upward, and the bareath; to the Sea-ward. Hence the Greek termithis part of Egypt Defta because it had the shape of their D, thus drawn Δ, and hegypt, viera, because it had the inape of their D, this drawn D, and the ligyptians themselves called it Kiph, or Kib, by a word that fignished a plan, the faithful whereof it bare: whence the head city meters a gar, the tanion whereor it oper. Rib and Robot therefore he holdeth; on be all one; as Nobals, and Nilus. and Kanan therefore he holdest eve e an one; as ranne, and prints. And these things, indeed, carry fone good flew of probability with them. Howber, it may be doubted, whether this Kif, or Kib, for the prints, be an home-bred Egyptian word or no. For it may not, a ptar, be an home-bred Egyptian word or no. For it may not, without some good ground, be suspected, that as the Arabian Phil, or Pil, and with their article Elphil, for an Elephant, springe, as most learned deem, either from the Hebrew Eleph, for an Ox, or the Greeks and Latines, Blephns, recifed and reverted; so that this Egyptian Rib, or Riph, for a pear, was taken from the Latine Pyrum,
The Latine termination being cur off, and the term it felf inverted; that which the rather may be supposed; because in those pieees of the Egyptian language, which learned men have of late acquainted us with, words, as well Latine, as Greek, are found not quantient is with, worth, as well Latine, as Streek, are found not a few. And the Arabian Errif, may more justify be deemed to defeeted from the Hebrew Rahab, then the Hebrew Rahab to have flown from it, as Nilus, from Nabal, not Nabal from it. I should therefore rather encline to the received notation of this name, given unto Egypt, being a proud and potent State, from a ready Hebrew original; then to one fo far fercht about, from grounds, neither of any great certainty, nor of approved antiquity; and appliable, in comparison, but to a smal part

Others make it a noun verbal, as an hidnig, and some verbals of that form are found. Again, some render the last, the particle with the pronoun from us, and that not a few embrace. Others, from him, and fo the pronoun in that form, is most frequently uled, yet in the other no-tion, allo, nor unufual, Gen. 3.22. Pal. 2.3. Hence arite variety of versions; Some render the words, and he bid, as it were the face (that is, his face, the pronoun supplyed, as Chap.59.2.) from us; or he is as one that hideth his face. Heb, the face from him, or of him: but of this latter conftruction, I find no fuitable example. But whether of these two wayes we read, or render the words, they import such a condition of delection, and contusion, and of affection thence ariling, as makes a man, like one athamed or himfelf, to cover his face, as not enduring to look up, or to be feen, and to thun the fight or others; and fo the meaning should be, he is one, who, as conscious to himself, either of the deformity, and lothsomeness of his person, or of his despicable and dejected estate, hideth his face from humane fight: the one was the lepers cafe, Levit. 13. 45. the other, Babylons, Chap. 47.3,5, and hence, together with the help of another word in the next verfe, have the Talmudists coined us a tale, how that one or their great Mafters met with their Mellias, at Rome, where he found him lying among the lepers. Others, of the people, in whole eyes he should appear, and seem to be such as is hereaster intinated Others, of Christ himself, that he should be lowly, and of fmall efteem in his own fight, as it is faid of Saul, 1 Sam. 15.17, and in the perion of Chrift, Plaim. 22. 6. Some would have the former word rendred, he took away, or hath taken away, our griefs, that is, our fins, the procuring cause of them, together with the griefs themselves, the effect! of them ! And it is true, that the word fignifies, fometime, to take away, as 10b 7 21. and that our Savionr is faid to take away the fins of the world, Joh. 1.29. but the fequel of the context carryeth it another way: tending to fnew here, rather the ground, and cause of his full rings then the end, or iffue of them. This passage the Evan-gelist makes use of, in relating Christs practice, in the healing of corporal infurmicies, not so much, as I conceive, thereby incimating that those bodily maladies, and the core thereof, was, (as some would have it)a type of those diseases of the foul, that Christ came principally to free men from, and his deliverance of them from the same: but that by histender pitty, and compassionate affection to wards persons so effected, and afflicted, he shewed that he had affumed, together with our nature, the infirmities of the fame; and had theretore a lively fellow-feeling of those pains and griefs, that did from the same proceed, in others.

However, all things well weighed, I endine rather to the fift, both reading, and rendring; because it both firetch well the tope of the place, as inporting a delipicable and tham full condition and that of one, who feemed to be develted of that magnificence, which formedly he had been pollified of. See John 1,17, 18, 111, 2, 6-7, 8. See Jet. 2. 31. But that he was grievoully limiten, was confliction enough; nor did they deem amile therein; their mistake was, that they thought him thus handled by God, in way of vengeance for his fins. So they wickedly and impioufly deemed of Chrift, when Heb, 12.2 and floweth most freely, without any force at all, from the they faw what grievous things he fuffered. And it is but an idle foppery of some populi Writers, to require the words to be read, God smitten; as intimating the diety of Christ: because the word, of is not expresly in the text: when as they cannot be ignorant, who know any thing in the Hebrew, that the course of the construction on, of noun with noun, doth necessarily imply it. Beside, that this reading directly croffeth the Prophets intention; as intimating, that the Jewish people should acknowledg Christ, notwithstanding his fufferings to be God, who, on the contrary, therefore condemned him, as guilty of impiety and blafphemy, and were enraged against him for it, because he professed himself to be the Son of God, one with the Father, and equal to God, Mat. 26.53-56. and the Lord hath laid on him the iniquity of us all Heb. hath made the iniquity of us all to meet on him; or to light, or fall on him, rather. Some of the Jewish Doctors, to diver this place from being undershood of Christis fastistation, by his fufferings, made for finners; because the word here found, is sometime used of intercession prayer, as Jer, 16 and here also, ver. 12. would aim turn the word that way, as if the party here spoken of, were, by prayer, only to have mediated, and pacified Gods weath, for the fins of some other, as Moles did sometime for his people, Exod, 32. 12,14 Num. 14,19,20. Pial, 106, 23. and because the word, would not sound handlomly, if it should be faid here, the Lord interceded, or prayed, as it is afterward; he interceded, or prayed; they would have it rendred; the Lord made him to intercede, or to pray: But neither produce they any instance of the word so used, nor will the syntax admit, or endure such a sense : For what a strange piece of non-sense were this: the Lord made him to intercede the iniquity of us all upon him? and both the words before, ver. 4,5. and those also following ver. 7, 20,12. do evidently hold out to any eye, not wilfully winking, that fatisfaction was made to Gods justice, and his wrath pacified, towards those, that had interest therein; not by interceilion, and prayer only, but by penalties, and fufferings. The word, therefore, is not a miss rendred by our Interpreters, where they give it, word for word in the margent, the Lord made to meet on him, and it may well be, to meet with him, as our English phrase is wont to express the like. So chap 47.3. I will not meet thee, as a man, and the revenger of blood, fhall flay the murtherer, where he meeteth with him, Num . 39 . 19,21. (as Exodus 23.4. if thou meet with thine enemies ax,or affe.) Or, where he lighteth on him; as he lighted on a place, Gen. 18, 11. which place, some of the Jewish Masters themselves, also, refer usto, for the notion of the word, in this place: and fo, here, it may more fitly be rendred; he made the iniquity of us all to light up. on him: as, the arm of God is faid (though another word be there) first form, very frequently rendred, fall upon him, 2 Sam, 1, 15.1 King. 2.29.31.and, fall upon the Priefts, I Sam. 22.18. and, be fell made it to fall on him as man is wont to fall in hostile manner, with a weapon, on his foe. God inflicted on him, what foever was re quifice, to the fatisfying of his justice, for all the fins of all his Elect ones, even of all that truft in him, Joh. 3.14,15, 16. & 11.50.52.2 Cor,5.14,15.Heb. 2.9,14,15.

V.7. He was oppressed and he was afflicted A very pregnant place; for the fatisfaction made by Christs fufferings for our fins, wete it fitly rendred, and rightly understood. The words are, word for word; It was exacted, and he answered. It was exacted; or, It is exacted; as some also well render it: that the former word doth properly, and commonly, fignific, is exact, cannot be denied. The Tewith Commenters, themselves, observe on the place, that it is usually meant of moneyes; directing us to that place, aking.23.35.he exacted the money. So Chap, 88.3. ye exact all your labours; or, as fome, all your debts: and, of a stranger thou mayest exact it; but not of thy brother, Deut, 15.2, 3. hence the name of an exacter, so frequent of the ordiner, Dea, 17,2,3, inches the name of an executive in require in Scripture, Job 3.17.8: 39.7. Chap. 3.12. 8: 9.4.8: 14.2.8: 60.17.
Zach. 9.8.6: 10.4. and that it is here a passive, the same Writers here observe. The old Latine Lendreth it, Hermer officed, as if the word were parallel to that other from whence the Corban cometh, mentioned, Mat. 15.5. and fo the mouning should be, he was ent, increament, mart. 1,5. and the meaning mound of the restriction are made to appreciate, or affired as a facrifice, ver. 1.9. But this verifion article from a two-fold mistake: For, fift, the word here used, and that other, of appreaching, differ, as our Jowish Creickets tell us; as Sibboleth, and Shibotth, Judg. 12.6. And secondly, this latter, in the pallive form, carryoth always neutrall; neither an active, not passive lense: it signifies, to approach, not to offer, or make to approach, not yet to be made to approach, or to be offered. So Gan. 33. 7-Egod. 10, 11 Chap 12, 13. The word, therefore: in the fange in there, with that; 1 Sam; 3.6. Where it is faid, the people, faing is a first il, sere polyled, or dilityled; and fo allo, Chap 14, 24, fave that there is in ucle, more majorically, here propedy, there; peals analy, here, imperionally, as the words of the water videolay faces. For there is neither noun, nor pronoun, before the first word of the verse; but a pronoun expresly before the next : which evidently controlorh their conceir, who expound it of the person from whom it was exacted, and render the words , He was exacted, which yes the yespound; it was demanded, or required of no other just of him the lenfe is found, but she construction hards, and not forting with the frame of the context. This the Rabbine himself law, and thereupon expounds it; it was exadled, to wit, money faith he, by thereupon expounds it; It was exacted, to wit; intropy shall me, why of task, or adlienter, as a Singa, 3,34,15, and he was afflicted, namely, the people of whem it was required, by fireign, or fixekes, being beater, because they paid not the fums required of them; as the people in Egypt were beaten, when they could not make up the full tale of bricks, Egod, 1,4. But the great Dodor had no regard to the current of the context : for that runneth in a constant, and to the surrent of the context, from the tenther in a commant, and continued conge and tenour, not as legalating of one, and the fame party or parties, both fining and fullering, or furfaining penalties, for their own defaults but as one, fuffering for the fini of another, and fulfaining grievous penalties, for defaults made, and faults comand illustuming greevous persistency of accusate management submitted, by other persons, Some of ourstherestore readed; it is exacted, and he is offlitted. Others, it was exasted, and he was affilited. Or, when it was exasted, he was affilited. Of which manner of syntax, see on ver. 2. that is, the penalty due to Gods manner of syntax, see on ver. 2. julice, for our fins, ver 6. was exacted, and he fustained the lame junite, for our his, ver o. was executed, and he initiated the latter for us. For that which a learned late Annotator fuggesteth, who would have it rendred, he was humble, or humbly submitted himfelf, not opening his month, because of Pharao it is said, Exed, 10.8. thou refuselt to be humbled : Neither doth that place and this, fuit well the one with the other : (It is one thing to be bumbled; anether to be humble,) and this Interpretation feemeth to decline from ther to be minute, and the arrivation to the drift of the precedent discourse, whereupon this hath dependance. The words, as formerly read, do infficiently confirm the doctrine of satisfaction made to Gods justice, by Christs sufferings for our fins. But yet some further ftrength may be, from hence, added thereunto, if we confider the latter term a little more exactly: For howfoever it be true, that the word, here used, do in the paffive form fignifie, to be afflitted, or humbled, as Exod. 10.3. Pfal. 119, 107, and fo in a grave, or weighty form, it is used, ver. 4. which this may here feem to have reference unto : and that the word used in a notion of answering, be seldome found, but in att active form : yet , as in the notion of affliction, the word is used, fomerime, in an active form paffively, for, to be afflitted; Pfal. 116. to light upon Affur, Chap. 30. 30, or, which I conceive to be the fittell expression; be made it all to fall on him: for so the word is in the passive form, not to be answered, either verbally, as so b 11.1. or, really as lob 19.7. Prov. 11. 13. but, to an iver, and that either verbally, or really, also. In the former fense, some understand won the Prietts, ver. 20. and, he fell upon him, t King, 2.25, 34,46, that place, Pfal. 19.167 before I and wered, (that is, fay they, before and, he fell upon two men better then himself, t King, 2.23. And though the word, faith he, in Hebrew, be not found to uted; yet in Latice, the word replander, theirs, it allows corner from flooder, that fignifies to underskey; and the word, to answer from the control of the control officed of his own accord, or because he himself would: which version, how foever it fail much, in the former term, as hath already been showed; yet it comes home to us, in the latter word; imply been newed; yet teemes noute to us, in the latter word; imply ing a voluntary undertaking, or engaging of bim/el/([leq Jet. 31.20.]) unto God his Father, in our behalf, as a Surety, (to is he termed, Heb. 7.22.) for the payment of our debt. And, which is yet more then fo, that albeit, the Hebrew be not found expresly, and directly used for such a sponsion, or engagement, yet that in this very form, that here it hath, it is twice used in the place of Ezekiel, before pointed to, I the Lord will answer him (to wit, the man that repairs to me for advice, with an idol in his heart and again, I will answer him by my felf, and that in a notion, not of a verbal, but of a real answering and fol conceive it is to be taken here, It was exafted, and be adjusted it. Butwhat if we read it according to the expolition of the branch, next before, deemed not improbable; as continuing the fentence in a notion of wonderment, that he should be cut off, (fo the particle was used befure, ver. 5, 6.) as a tree that was hewen down, 2 King. 6.4. that he should be thus taken away, by a violent death, from abiding and conversing on carth, among men, that there live, Pial, 27, 13.852. 5, and 116 .9. chap. 38,11.

V. 9. And he made his grave with the wieked, and with the rich in

his death.] Some Writers of note, suspect these words to have been by some means transposed, and suppose, for the fitting of them, to the story of the Gospel, concerning his death with malefacturs, on mount Calvary, Mar. 27, 33, 38. Mar. 15, 28. Luk, 22, 37. and his barial, in Josephs Sepulchre, Mar. 27, 73, 60. that the text ought thus to be read; And his death shall be disposed of, with the wicked, and his grave with the rich. The like thoughts have some other had of Plal. 35.7. and of Act, 7.16, but to give way to fuch conjectures, scemeth unfate. To let that therefore pass, and take the words as we find them, at present, in the text, the expositions of them in the lump, may be referred to two heads: the one of those, which feems the more improbable, who understand the words, as concerning either the effect, or the efficacy of Chriss sufferings; to wit, either, that those wicked ones, and ich ones, that had had an hand in the procuring of his death, flould pay full dear for it; being given up to endure the like harft and cruelulage, at the hands of others, as Chnit, at their hands of others, as Chnit, at their hands of others, as Chnit, at their hands had fulfained: as chap, 43-3,4, or, that even wicked men, and those great ones too, who are wont to be most obstinate, should be Subdued, and made subject to the Scepter of Christ, by the power and efficacy of his passion, Pfal. 110.2. The other is, of those, who conceive them to be meant, wholly of his fufferings themselves, either, that the Jewish people thould put him into the hands of Heathen people, the Romans, and their Ruler Pilate, Mat. 20.19.20, Joh. 18.

Nor can I condescend unto thole, though of prime note, who having put the word prople, into the text, and fet it in the front of the verle, render the words. unto their own death; as importing, that the Jews, by delivering up of Chrift, brought definiction upon themselves : as having reference to the imprecation by themselves past upon them, at the delivering up of him, Mar. 27, 25. See before, yer. 8. There is another reading, that the Rabbines fome of them, here exhibit; as if it were not made up of a fervile particle, and a noun, with his affix; as both we, and themselves, also, commonly take it; but a noun only, with a pro-noun affixed unto it, and so should signife his high places. Which I should not mention, save that some, not Popilih Writers only, but ours alfo, and those of note, doe not only take notice of it, but admit it, and preffe it, as intimating the stateliness of the Sepulchre wherein Chritts body was laid as if lofephs monument were, as flately an one, as Shebna had built it for himfelf, ch 22.16. But this stately an one, as shedna had clinic to infinelly cut 22.10. Dirt this reading, the points, or vowels, in the original, refule, and refute a nor doe the Doftors, that circ it, give any appobation of it; nor will this reading cohere handlomly with the reft of the context. I suppol. that as the latter part of the foregoing verse, so the forepart of this, run on in a continued feries, containing matter of admiration, in this manner; And that his burial should be at the disposal of wicked ones, and of rich ones, or, rulers, at his death; that is that wicked greatones should have finel power given them over him, as not only to take his life awayfrom him, by a violent and most cutel death; but after that perpetuated, to dispose of his dead corpse alfo for his burial, at their pleatures

because he had done no violence, neither was any deceit in his mouth This reading may fland, not amils, with the expolitions of those, that conceive the foregoing words to be understood, either of the revenging hand of God, upon the Jews, for the death of Christ, or of some honour done him, in, or at, his interrement; or of the berefits, that from his death and burial, accrew to the faithful : not

But the words would rather be read, as they found, we for any iniquity, that he had done, nor guile that was in hismouth. So Job 16 Indignity, that we that almes, and generally a monoided also, are found, Not for any injuffice (to the word is there rendred) that is a mane hands, that is, albeit, he had done nothing amiffe, Mar. 7.37. Nor doth that at all crofs this exposition, which a learned Writer objecteth, who having himfelf fometime which a featured writer objection, who maying in inner rometime rendred the text here, although or, when my sty, be had donness wrong, doth afterward revoke it, because never findeth the particle here used, in such an adversative, but frequently in a causal notion, for it is plainly in a causal notion, when it is said, not for, or, brcause of, any wrong he had done: which is the very same, in effect, with what himself had before given, albeit he had done no prong, and he had no caute therefore to reverle; his grammatical

and we hid as it were our faces from him] The words in Hebrew are both diverfly read, and diverfly refolved. For some make the are noted diverny read, and diverny reloved. For some make the first word a participle, as each biding, or one that bideth: and the participle, in that flexion, is very commonly so framed. Others make it a noun verbal, as an biding, and some verbals of that form are found. Again, fome render the last, the particle with the pronoun from us, and that not a few embrace. Others, from him, and fo the pom us, and that no a tew subsets. Subsets from may an or the pronoun in that form, is most frequently delayer in the other notion, allo, not unufusal, Gen. 3-12, 1731-3. Hence arise to verifous, Some render the words, and he list, a subset of the verifous from ender the words, and he list, a subset of the free (that is, his sice, the pronoun supplyed, and he list, a subset has the free her as somethat headth had face lists to the proposition, or of him but he as somethat headth had face lists to the free free through the subset of the subset had been also been also as the subset of of this latter construction, I find no suitable example. But whether of these two wayes we read, or render the words, they import such a condition of dejection, and confusion, and of affection thence ariting, as makes a man, like one alhamed of himtelf, to cover his tace, as not enduring to look up, or to be seen, and to shun the sight of others: and so the meaning should be, he is one, who, as conscious to himself, either of the deformity, and lothsomeness of his person, or of his despicable and dejected estate, hideth his sace from humane fight: the one was the lepers case, Levit. 13. 45. the other, Babylons, Chap. 47.3,5 and hence, together with the help of another word in the next verse, have the Talmudists coined us a tale, how that one of their great Mafters met with their Meffias, at Rome, where he found him lying among the lepers. But other ren-Nome, where ne tournament sympationing the experience other feet the works, and at an inhibit of facely or of the facel for the Words though of a plural term, yet is ordinarily of a fingular notion, as Prov. 2, 2, 3, Chai, 9, a y from him, or as the face, or his face, as before: that is, as one, whom men hide their face, or his face, as before: that is, as one, whom men hide their face, the face of faces from: this fen!e our version follows: and following it, it may feem that it should rather be rendred; and as one, from whom the face is bid, or mens faces are bid; for according to this reading, the words are more general and indefinite; there being no our, in the text. Now hiding the fice, proceedeth, sometime, from a reverent respect, and awful dread, 1:xod. 3.6 1 King. 19.13, fometime, from fome glorious fplendor, that dazeleth the eye fight, Chap. 6.2. Dut whether not seek, the state of the sta rendreth it, as a Leper: which yet may bear a warrantable fenfe. See ver 3. But that of the Tahmudifts, is a most ridiculous fancy. Howbest, in this last notion, wherewith some also take in two of the next before it, I conceive the words may well be here underthe next before it, I conceive the words may well be here under-flood. See Chap. 49.7. yet not concurring with those that ar-tibute this, hidning of the face, unto pixy and compassion; because it crofleth the main drift of the whole context: nor consenting with fuch as their rapfodies are fraught with , not a few : the word is general, comprehending any floore, plague or affliction what fovers and they may as well prove, that Alaph, the Author of that 73. them, that suppose the covering of mens faces condemned to dye, to be here pointed at as Ch. 35.7. The words, as somethy read, do sufficiently confirm the doctrine of satisfaction made to Gody justice, by Christs sufferings for our fins. But yet some surther strength may be, from hence, added thereunto, it we consider the latter terma little more exactly: For howfoever it be true, that the word, here ufed, do in the paffive form fignifie, to be afflifted, or humbled, as Exod. to. 3. Pfal. 119, 107. and foin a grave, or weighty form, it is used, ver. 4. which this may here seem to have reference unto : and that the word used in a notion of answering, be seldome found, but in an active furm : yet , as in the notion of affliction, the word is used, fometime, in an active form passively, for, to be afflicted, Plal. 116.

And though the word, faith his, in behave, he not found to ufed; yet in Latine, the word or plouder, that is, to answer, comes from plouder that fignifies to a subject, on the French tongue, for commonly utile. Hereunto may be added, that the old Latine fears to look this way, that renders the text, 18 mass. offered of his own accord, or because he himself would: which version, howfoever it fail much, in the former term, as hath already been showed; yet it comes home to us, in the latter word; imply been flowed; yet teemes none to us, in the tatter word; sniply ing a voluntary undertaking, or engaging of himfelf (loc Jet. 31.20.) unto God his Father, in our behalf, as a Smety, (to is he termed, Heb. 7.22.) for the payment of our debt. And, which is yet more then fo, that albeit, the Hebrew be not found expresty, and directly used for such a sponsion, or engagement, yet that in this very form. that here it hath, it is twice uled in the place of Ezekiel, before pointed to, I the Lord will answer him (to wit, the man that repairs to me for advice, with an idol in his heart) and again, I will answer him by my self, and that in a notion, not of a verbal, but of a real answering and fol conceive it is to be taken here, It was exalted, and he assistered it. (the particle being necellarily, as oft elsewhere, supplied, See Chap. 48 5,6.) that is, he not only undertook it, but discharged it. So we use the word commonly in our English tongue, to answer a debt, for to discharge it. What the first should do here, cannot cafily be made to appear the latter if we admit, according to the former Interpretation, at the fact of the foregoing branch, the copulative would be turned into an advertative, as ver. 10. But there want not those, that turn the words another way: and they conceive them to tun in an abrupt, and paffionate form of speech, as complaining either of the strangeness of the things that befell him: & they then read the words, it is would have faid of his generation ? to wit, that fuch things thould have, in his age or time, betaln him? as, Who would have faid to Abram, that Saral bould give fuck? Besides, that the Centurion, unto whom the execution was committed, feeing the manner of his death, and, in likelihood, observing his last words, recorded, Luk. 23. 46. is, both by Matthew& Mak, reported to have broken out into those words of atruth, this man was a Son of God, Mat, 27, 44. V. 9. And he made his grave with the wicked, and with the vich in
his drath.] Some Writers of note, tulped there words to have been
by fome means transposed, and suppose, for the fitting of them, to
the story of the Gospel, concerning his death with malefactors, on mount Calvary, Mat. 27.33,38, Mar. 15.28, Luk. 22.37. and his burial in Josephs Sepulchre, Mat, 27,57,60, that the text ought thus to be read; And his death shall be disposed of, with the wicked, and his grave in the the rich. The like thoughts have some other had of Plal. 35.7. and of Ad. 7.16. but to give way to such conjectures, seemeth untafe. To let that therefore pafs, and take the words as we find them, at present, in the text; the expositions of them in the lump, may be referred to two heads: the one of those, which seems the more improbable, who understand the words, as concerning either the effect, or the efficacy of Christs fufferings; to wit, either, that those wicked ones, and rich ones, that had had an hand in the procuring of his death, flould pay full dear for it; being given up to endure the like harsh and cruelulage, at the hands of others, as Chrift, at their hands had fustained: as chap, 43.3,4. or, that even wicked men, and thole great ones too, who are wont to be most obstinate, should be subdued, and made subject to the Scepter of Christ, by the power and efficacy of his passion, Plal. 110.2. The other is, of those, who conecive them to be meant, wholly of his sufferings themselves, either, that the Tewish people should put him into the hands of Heathen people, the Romans, and their Ruler Pilace, Mat, 20.19, 20, Joh. 18. 35. who by that means, having condemned him, and dealt with him, as with a malefactor, flould dispote of his death, and burial, at his placture, Mar. 27.2.57,58. Luk 23.7.2.50,51. John 18.28-32 & 19.6,11.12,38. or that God blould deliver him into the hands of wicked men, and Rulers to to be disposed of by them, for either, as themselves men, and Kuters 10 to De ampute or by them, to enter, as themserves pleafed, Like, 24,5, 3.46.12, 3.8. 4.17, 3.8. Howbeit, among the latter there are, who, together with his fufficings, conceive an infination of fome honour done him, concerning his burial; as if it were faid, that though birgrave, were, in ordinary courfe to have been among malefactors; yet it was with the vich: being buriedin honourable man-ner, by Joseph, in his own tomb, Mat. 27, 57-60, and that to frew, that all penalty and hame for fin, were fully fatisfied for, and had an end at his death; according to that, Joh. 19,40. Howbeit, that feems rather to have been manifefted, at, and by, his refure ction, Rom. 4. 21. & the reception of him, in foul first, (though that not fo conspicuous) Luk. 23.43,46, and in the whole man, not long afterward, into Heaven, Joh. 13.1. & 16.10. 1Tim.3.16, otherwise his abode in the grave, though a rich, and honorable mans grave, under the power of death, for a time, was a branch of his humiliation, and is reckoned. as a part of his passion, Act 2.24,27. Nor want there here again fome others, who would have hereby intimated, Christs carrying of ourfins, which in his body he bare on the Croste, 1Pet. 2.24. with him into the grave, and there burying them, that they may not appear any more in Gods fight, as Gen. 3.4. Pfal.88.5. to which purpole, also, they hook in hither that of the Apolle, Rom. 6.4. Col. 2.12 as also that of Dan. 9 24. to shou pp and fede up sin, as they would have the words there read, with some reference to the shutting up of Christ in the Sepulchre, and the sealing up of it. Mar 27. 66. And as this in the former branch, to the pretions riches of his bloud and death in the latter, 1 Pet. 1.19. Eph, 1.7, 8, 18.8 2.7.8 3.8. Col.1.27. All which to make out, the two concretes in the text are

But the pronoun, his, affixed, feemeth to make the confirmation; in that fende, here, the harfhet, and to carry it rather the other way. I shall subjoyn only an Annotation of a late learned Writer: He conceiveth that the word here used, though commonly fignifying, coall, or end, or extremity, doth oft times also denote, eminent, or honourable perfons. So he decmeth it to be taken, Gen. 19. 4. & 47. 2. Judg. 18. 2. Chap. 26. 15. Ezek. 33. 2. and fo he would have it taken here; and the meaning to be, eichief of them; not the unearer fort only : or referring it to the Periodis, they look after their gain, the very chief of them; not the unearer fort only : or referring it to the people whom they made a prey of they follow their gain, from the principall, (that is, the richer fort) of them, to wit, of that people, whole watchmen they are faid to be, ver. 10. But the places produced, are all questionable; nor doth it feem to go smoothly either way here: yea, this Author himself elsewhere seemeth consident, that this phrase agnification every fide, both here, and Jer. 50.26.8. 51.31, and in most of the places here alledged by him to other purpose. This they gathered from Ezck.45.11. where for their oblation, the fixt part of an Epha, is required out of an Homer, which contained ten Ephaes. Hence, they made three degrees of offerers, one that brought but a fixtieth part, whom they call a man of a flrift eye: Another that brought the ffireth part, whom they term the middle man: A third, that brought printing part, whom they term the minater than, and thin to begin the foritish part, whom they call a man of a good ept. Thou haft engaged thy felf to their idols, by entring into covenant with them, Deut, 7.2 -4. 2 King, 16.10, Heb. and cut thee out, or cut thet down from them, or more then they. Now howfoever it be time, that the word of cutting out, be applyed unto covenanting; the reason whereof, see on, Chap. 28, 15, from Jer. 34, 8, 18. Yet because neither the word is found so used, but where the word commant, is exprelled; nor are perfons faid, to cut covenant from one, but to cut covenant with him, as in the place before pointed to, and elsewhere; some other sense of the words is to be sought out; where, to pass by those, who, seeming to wan-

Judg.21,12. See Jer. 2,25. wherefoever thou faweft them; and fome of the Jewith Doctors observe it, as a thou lawelt them; and tome of the Jewin Doctors outer signs, ranfgreffion of that inhibition, Deut. 12, 13, but that here, is far beneath the guilt of the crime; it rather, to read, imports their propenels to this fpiritual inordinate bith, wherewith, upon any the east occasion, in any place, at any time given, the was as a common ftrumpet delighting in such tilthiness, presently costamed, Ezek, 23.14,16.a defect of the particle, in. as Chap. 44.12, & 48.4. and of the relative, as before; or, thou loveft their bed; the preparedfl, or, providedfl, room; to wit, for them, to entertain them in: for the verb fign fies, not to fee only, but to prepare, or, provide, also; as Exod, 18, 21, and for the word also parallel to it, Gen, 22, 8. and the noun is frequently used for room, or place : as Deut. 23. 12. Chap, 56,6, and in the plural malculine, for fpaces, or rances, Chr. 23.15. Chap. 22.18. & 33.21. and this I conceive to be the genuine fenfe of the word : for that which some say here, of a monument; as if the word were to taken, 2 Sam, 18, 18, to omit, that it may there also be rendred, as our version also hath it, as well Abfoloms place, as Abfoloms monument, that notion feems not to fuit fo well here. Howbeit, because the word properly fignifics an hand; and the old Latine renders it, with an open hand; as if the latter word were not a verb, but a noun; fome Popith Writtes would have it to mean, with an open hand; that is, not covertly, but openly, without thame, or with the hand beckning to, and inviting company, and customers to her: as Chap. 13. 2, and 65.2. Prov. 1.24. or, with open-hand, liberally, hiring fuch, and sparing no coft to fatisfic her filthy luft, ver. 9. Ezek. 23.31-34. but one of their own coat, doth ingenuoufly acknowledge, that no fuch noun as they here dream of, is at all found in Scripture: who would therefore, expound it of the workmans band; pur, as he supposeth for his work or workmanship ; as we say a mans hand, for, his handwriting; the efficient, for, the effect : drawing in hither, that of Absolutes pillar, and applying it to Abaz his altar; of both which before. Others, of the adulterers hand, in an obscene notion, not fit to be expressed. But thus men out of a preposterous afternoons. ction, perverfly employ and ftrain their wits, to support and bear
